**GLORY KATHAMBI
KITHETU**

FOUNDER

In today's complex and rapidly evolving world, young people face an unprecedented range of choices, opportunities, and risks. It is our responsibility as leaders, mentors, and a community to ensure they are equipped not only to navigate this landscape, but to thrive within it.

We firmly believe that potential is universal, but opportunity and direction are not. With the right mentorship, young people can rise above societal pressures, overcome systemic and personal challenges, and position themselves for long-term success.

Together, we are investing in a future defined by integrity, purpose, and possibility.

RONNY MUTETHIA

MENTOR

Young people today face numerous pressures and uncertainties, and with the right support, they can unlock their abilities, overcome difficulties and build successful futures.

MORE ABOUT US

WHO WE ARE

We are a mentorship initiative dedicated to empowering high school and junior secondary students with knowledge, life skills, and guidance to navigate life challenges and make informed decisions.

Through interactive sessions, we address key issues affecting learners today, including career choices, mental health, menstrual hygiene, and drug and substance abuse.

OUR PROGRAMME PILLARS

Career Guidance

- Subject selection
- Career pathways
- Goal setting

Menstrual Hygiene

- Awareness & education
- Breaking stigma
- Hygiene practices

Drug Awareness

- Effects of substance abuse
- Peer pressure resistance
- Positive choices

Mental Health

- Stress management
- Emotional well-being
- Resilience building
